Florida's New Professional Learning Standards

FOUNDATION

Leadership
Professional learning requires leaders who develop capacity, create support systems, and advocate for professional learning to continually improve educator practice and student outcomes.

NEEDS & PLANNING

Professional Learning Needs
Professional learning includes the use of student, educator, and system data to analyze, prioritize, and plan for continuous improvement of educator practice and student outcomes.

Professional Learning Resources
Professional learning requires schools and systems to maximize and monitor the use of resources to continually improve educator practice and student outcomes.

LEARNING

Learning Outcomes
Professional learning includes outcomes that ensure intended changes in educator knowledge, skills, dispositions, and practice align with student learning needs.

Learning Designs
Professional learning includes use of research- and evidence-based learning designs to continually improve educator practice and student outcomes.

IMPLEMENTING

Implementation of Learning
Professional learning includes multiple opportunities to implement new learning with ongoing support and actionable feedback to continually improve educator practice and student outcomes.

EVALUATING

Evaluation of Professional Learning
Professional learning includes formative and summative evaluation of the effectiveness of professional learning in increasing educator knowledge, changing educator dispositions and practice, and improving student outcomes to inform future decisions about professional learning.
